SUMMARY

Full Stack Developer with 1+ years of hands-on experience designing, developing, and implementing applications and solutions using a range of technologies and programming languages. Seeking to leverage broad development experience and hands-on technical expertise in a challenging role as a Full-stack Developer.

EXPERIENCE

Full Stack Developer

Riviera Infraprojects

July 2024 – Present, Ahmedabad, Gujarat

- Led the enhancement and maintenance of custom ERP workflows, implementing complex PostgreSQL functions and APIs to handle budget validation, rate approvals, and role-based data access.
- Developed and maintained a cross-platform mobile application using Flutter, supporting on-site operations such as approvals, quality checks, and safety reporting as part of the ERP system.
- Tools and Technologies : ReactJS, NextJS, Material UI, .NET Core, Typescript, C#, Flutter, Dart.

Full Stack Developer Intern

Riviera Infraprojects

January 2024 – June 2024, Ahmedabad, Gujarat

- Developed of core ERP modules including quality and safety.
- Collaborated with senior developers to integrate Excel-based validation and data import workflows, reducing manual data entry errors across project-specific modules.
- Tools and Technologies : ReactJS, NextJS, Material UI, .NET Core, Typescript, C#.

PROJECT

NexGen CRM

June 2025 – Present

- Developing a comprehensive CRM system to digitize and streamline job application management processes, migrating from Excel-based workflows to a centralized database solution that improved data accuracy and operational efficiency for recruitment services.
- Building a candidate-facing portal integrated with the CRM platform, enabling real-time visibility into application status, job matching progress, and communication history, enhancing transparency and candidate experience throughout the recruitment process.
- Tools and technologies: NextJS, NodeJS, MongoDB.

NexusArena (Beta)

[tournament-lake.vercel.app/](#) • March 2025 – May 2025

- Developed a responsive web application for managing e-sports tournaments, enabling users to create matches, register teams, and track live game results.
- Implemented an admin dashboard that allows authenticated users to host and manage tournaments, including creating brackets, updating match results, and controlling participant access.
- Tools and Technologies: Next.js, Tailwind CSS.

Weather App

[www.pawaradarsh.dev/Weather_app/](#) • June 2023 – July 2023

- Developed a dynamic, responsive Weather App that allows users to search and retrieve real-time weather data for any city or country.
- The application features an intuitive interface and integrates data from reliable weather APIs to deliver accurate, up-to-date information.
- Tools and technologies: ReactJS, TailwindCSS, LuxonJS.

Automated TimeTable Generator

August 2021 – February 2022

- Designed and developed a web-based Automated TimeTable Generator that creates optimized schedules by processing subjects, faculty, and user-defined preferences.
- Implemented constraint-handling logic to enforce rules like maximum lecture limits and prevent scheduling conflicts, ensuring accurate and efficient timetable generation.

• Tools and technology: ReactJs, MySQL, Laravel, avel, avel, Bootstrap.

EDUCATION

Master of Computer Applications

Institute Of Technology, Nirma University • Ahmedabad, Gujarat • 2024 • 8.36

Bachelor of Computer Applications

GLS University • Ahmedabad, Gujarat • 2022 • 8.45

SKILLS

Programming Languages: HTML, CSS, JavaScript, TypeScript, C++

Tools and Technologies : ReactJS, NextJS, Bootstrap, TailwindCSS, NodeJS, .NET, Flutter, MySql, PostgreSQL, Git
