- **Company:** Riviera Infraprojects

FullStack Developer

RNET ERP

📅 July 2024 - Present

- Developing the web and mobile application for the company's ERP system.
- **Tools and Technologies :** ReactJS, NextJS, MaterialUI, .NET Core, Typescript, C#, Flutter, Dart.
- **Company:** Riviera Infraprojects

PROJECTS

Weather App:

📅 06/2023 - 07/2023

- Developed a dynamic, responsive Weather App that allows users to search and retrieve real-time weather data for any city or country. The application features an intuitive interface and integrates data from reliable weather APIs to deliver accurate, up-to-date information..
- **Tools and technology:** ReactJs, TailwindCSS, LuxonJs.
- **Github:** [Github Link](#)
- **Live Demo:** [Weather App Link](#)

Automated TimeTable Generator:

📅 08/2021 - 02/2022

- Automated TimeTable Generator is a web application that efficiently creates timetables based on user preferences, processing data such as subjects and faculty while adhering to constraints like maximum lectures and avoiding scheduling conflicts.
- **Tools and technology:** ReactJs, MySQL, Laravel, Bootstrap.
- **Github:** [Automated TimeTable Generator Link](#)
